

# Golden rules for minibeast hunting!

## PLEASE....

1. Always **put back logs** (and other items) **exactly how you found them** – these are the minibeasts' homes.
2. **Never stand on the logs**, you might squash the minibeasts living underneath.
3. Look carefully and **be gentle!** Minibeasts are delicate.

**THANK YOU**  
and  
**HAVE FUN!**
